

# **BoMill AB**

# Year-end report and summary of the fourth quarter (Q4 2023)

BoMill AB, organization number 556556-4332

#### **INCREASED SALES DURING 2023 - HIGH EXPECTATIONS FOR 2024**

## Net sales and income for the fourth quarter (October - December 2023)

- Net sales amounted to KSEK 3 108 (KSEK 20)
- Net income after financial items amounted to KSEK -4 144 (KSEK -8 381)
- Net income per net weighted average share amounted to SEK -0,04 (SEK -0,18)
- Cash flow during the fourth quarter amounted to KSEK -3 188 (KSEK -4 353
- As of December 31, 2023, cash and cash equivalents in the Company amounted to KSEK 12 521 (KSEK 14 644)

# Net sales and income year-end (January - December 2023)

- Net sales amounted KSEK 8 479 (KSEK 560)
- Net income after financial items amounted to KSEK -17 583 (KSEK -25 251)
- Net income per net weighted average share amounted to SEK -0,25 (SEK -0,75
- Cash flow during the period amounted to KSEK -2 123 (KSEK 102
- Orders received during the period amounted to KSEK 5 200 (KSEK 5 400)

#### Highlights during the fourth quarter

- Exhibiting at Agritechnica, the world's largest agriculture show, in Hanover on November 12 18
- On October 20, BoMill announced the Nomination Committee for the 2024 Annual General Meeting
- On December 19, BoMill announced BoMill InSight™ received an award at French trade show Vrac
  Tech

#### Highlights after the period

 On January 24, 2024, BoMill announced an agreement worth EUR 185 000, signed with the Swedish agricultural group Lantmännen

# CFO COMMENT

# CLOSING THE YEAR WITH CONFIDENCE FOR 2024

"During the fourth quarter of 2023, we made substantial progress with two new installations and the order from Lantmännen, materialized in January 2024. I'm excited and confident about 2024."

# Successful installations supporting growth

In the latest interim report, I gave a summary of the status of the first two BoMill InSight™ installations, in Denmark and Germany. We continuously monitor them in coordination with our customers and they perform according to expectations. We have also now finalized the installation of two more BoMill InSight™, in Lithuania and in Latin America. They are now operated by the customers.

In parallel, we are in discussions with some of our customers about upgrading their existing equipment with additional sorting units to increase overall capacity. This is the best evidence that our technology brings a strong return on investment to our clients.

I'm also thrilled to mention that another installation is now on the way following the order from the Swedish cooperative Lantmännen (Press release January 24, 2024). BoMill InSight™ will be supplied as part of our built-in container solution, which our customers appreciate as an attractive option for rapid and simpler on-site deployment.

# **Getting ready for future orders**

To optimize production and reduce lead time for future orders (BoMill InSight™ capacity upgrade or supply of full equipment), we have, over the last months taken some important actions. Our new ERP (Enterprise Resource Planning) is now fully operational, giving a full overview and control of our business operations. In

collaboration with our key suppliers, we are sharing and increasing inventories of strategic parts while keeping control of the company's liquidity.

# Feeding the sales pipeline

Following our first BoMill InSight™ installations, we are deepening collaboration with our multinational customers to assess potential for further opportunities. This constitutes additional growth potential for BoMill.

During the final quarter of the year we had several activities on the commercial side with visits to new prospect customers and trade events, including exhibiting at Agritechnica, the world's largest agriculture show. These visits gave the opportunity to showcase BoMill InSight™ and educate on the benefits of our unique technology. As part of our sales process, the next step is to carry out sorting tests using reference materials from the prospects. These tests are continuously underway to assess and quantify business cases in collaboration with the customer.

Considering the milestones we reached in 2023, I am very confident that 2024 will be a successful year for BoMill. With a committed team and already some fantastic reference customers, BoMill InSight™ has a bright future.

Andreas Jeppsson, CEO

# ABOUT BOMILL AB

BoMill develops and sells advanced sorting equipment for the grain and food industries. Its proprietary patented technology allows accurate grain sorting at an industrial scale, based on the internal properties of each individual kernel. In that way, every viable grain can be used for what it is best suited for. While reducing the waste of valuable resources, BoMill's single kernel sorting method also helps the food industry maximizing the use and value of grain in a way that was not possible before.

## VISION

BoMill's vision is to become the world's leading provider and partner for commercial scale sorting solutions, based on the composition and structure of each individual kernel.

## **MISSION**

BoMill's mission is to improve food safety by removing toxic kernels from a grain lot and increasing food security by sorting according to quality parameters such as protein content.

#### CHALLENGES IN THE GRAIN INDUSTRY

Today grain is amongst the most traded commodities and a critical staple food facing a global challenge.

With a growing global population, there is a huge demand to maximize food volume, quality and yields from existing land. Factors such as climate change, the

prevalence of toxins, poor production conditions and geopolitical uncertainty increase the risk of food shortage, through fluctuations in crop volumes and quality. This may result in a deterioration of the global food supply in the future.

Additional challenges such as stricter regulations related to grain handling and consumers' demand for sustainable food products are creating changing conditions for the food industry.

The grain value chain must find new ways to maximize the value of harvests. BoMill's offering brings a unique opportunity to optimize processes and create value for the various stakeholders in the food chain.

#### A SUSTAINABLE SOLUTION

Being organic materials, individual kernels of a grain load can have very different internal compositions. Traditional methods give an average quality for the load, based on a few samples, but do not consider variations within that load. Some of the grains produced today can thus be wasted or misused when processed.

BoMill's sorting system is a sustainable solution, taking advantage of quality variations to maximize the use of grain for the right type of food production, which means that each grain batch can find its appropriate place in the value chain and can be used for what it is most suitable for.

## PRODUCT OFFERING

BoMill's grain sorting technology is offered as the modular solution, BoMill InSight™ with the capacity to sort commercial quantities of grain up to 15 tons per hour.

#### **BUSINESS MODEL**

BoMill generates revenue through B2B sales and offers the grain industry sorting equipment that can be integrated into either existing sorting facilities or mobile

units. BoMill has its own sales organization for the markets in Europe as well as distributors in the markets in North and South America. The company's business model is initially implemented through a feasibility study, leading to a sales agreement. In the aftermarket, BoMill offers service and maintenance of sold equipment.

#### TECHNOLOGY AND PATENT

# A smart and unique technology

BoMill's technology for sorting grain is based on near-infrared technology in transmittance mode, or "NIR / T, near-infrared light analysis". Unlike today's optical sorting equipment, which only performs a visual analysis by assessing the surface area and shape of kernels, BoMill's equipment can analyze and sort each kernel based on its structural and chemical composition. This means an opportunity to create homogeneous fractions of grain that enable process optimization for food production.

# An active patent strategy

BoMill has a structured patent strategy in place and continuously submits new patent applications in markets around the world to develop a strong market position and competitive advantage.

The company currently has a large number of registered patents strategically spread around the world and ongoing patent applications.

# FINANCIAL OVERVIEW

# Results and financial position October – December 2023

Net sales during the fourth quarter amounted to KSEK 3 108 (KSEK 20). Other operating income during the fourth quarter amounted to KSEK 14 (KSEK 10). Capitalized income amounted to KSEK 122 (KSEK 512).

Net income after financial items during the fourth quarter amounted to KSEK -4 144 (KSEK -8 381), while net income per share amounted to SEK -0,04 (SEK -0,18).

Cash flow during the fourth quarter amounted to KSEK -3 188 (KSEK -4 353). At the end of December, BoMill had a cash position of KSEK 12 521 (KSEK 14 644).

#### **Investments**

During the fourth quarter, investments in intangible assets (patents) amounted to KSEK 454 (KSEK 811). During the fourth quarter, investments in tangible assets amounted to KSEK 68 (KSEK 64).

## Results and financial position January - December 2023

Net sales during 2023 amounted to KSEK 8 479 (KSEK 560). Other operating income during the period amounted to KSEK 57 (KSEK 390). Capitalized income amounted to KSEK 743 (KSEK 1 443).

Net income after financial items during the period amounted to KSEK -17 583 (KSEK -25 251), while net income per share amounted to SEK -0,25 (SEK -0,75).

Cash flow during the period amounted to KSEK -2 123 (KSEK 102). Orders received during the period, amounted to KSEK 5 200 (KSEK 5 400).

Considering current financial position and expected transactions, the Board and the Management estimate the capital position to be sufficient for covering the coming twelve (12) months of operation.

#### Investments

During 2023, investments in intangible assets (patents) amounted to KSEK 1 558 (KSEK 2 460), and investments in tangible assets amounted to KSEK 772 (KSEK 284).

# Staff and organization

As of December 31, 2023, BoMill had 10 employees (10).

## The share

There is one class of shares in BoMill. The share was listed at Nasdaq First North Growth Market on October 20, 2020, under the ticker "BOMILL.

As of December 31, 2023, the number of shares in the Company amounted to 93 058 140 (46 529 070).

## **Shareholders**

The table below presents major shareholders in BoMill as per December 29, 2023

Name	Shares	Votes
